Implementing bedside ICU rounds on ICU patient’s held in the Emergency Department

As numbers of critically ill patient’s at Sunnybrook’s Emergency Department (ED) continue to rise, 90% of ICU patient’s are held in the ED for 48 hours or longer until a bed becomes available in the ICU. In January we implemented a project to bring ICU style rounds on the ICU patients held in the ED. Rounds have the purpose to bring multiple professionals and the patients family together at 10:00am in order to discuss and plan the care for the patient. Please complete this questionnaire to give our team a better idea of how rounds have contributed to your care while in the ED.

Your care will not be impacted by completing this survey, you can stop the survey at any time, and you are not obligated to complete the survey. Thank you!

Following rounds, did you understand the plan of care for your family member while they were held in the ED?

Yes / No (circle yes or no)

Did you feel involved in the plan of care during rounds on your family member?

Yes / No (circle yes or no)

Did you know when the care team would be rounding?

Yes / No (circle yes or no)

Was your family member fed within 24 hours while in the ED?

Yes / No (circle yes or no)

How long have you been in the ED?

(circle answer)
- 12 hours
- 1 day
- 2 days
- 3 days
- More than 3 days

Date: ___________
Sondage des médecins

1. The current plan of care for Level II ICU patient’s boarded in the ED is very clear.
   - Never.
   - Rarely.
   - Occasionally.
   - Often.
   - Always.

2. What are the barriers to communication surrounding the plan of care for Level II ICU patients boarded in the ED? (select all applicable boxes).
   - Nursing workload.
   - Physician workload.
   - Lack of structured discussion about plan of care (Rounds).
   - Poor continuity of care.
   - Finding the right health care provider (nurse, specialist, support staff).
   - Hectic environment.
   - Lateral hostility between specialties, units, and health care providers.
   - Lack of family presence.
   - Other (please specify)

3. Overall, how would you rate current ICU Rounds on D4 & B5?
   - Excellent
   - Very good
   - Good
   - Fair
   - Not Good
   - Poor
   - Very Poor

4. Are there any changes you would make to improve ICU Rounds on B5/D4?
   - Yes
   - No

Please comment on why you chose yes or no:

5. What are the elements that make ICU Rounds successful? (select all that apply)

- Presence of all team members
- Time during the day
- Presence of family
- Absence of family
- Specific duration per patient
- Other (please specify)

6. What staff are required for ICU rounds in the ED to be successful? (select all applicable boxes)

- Fellow
- Staff Physician
- ED Charge Nurse
- ICU Charge Nurse
- Patients Primary ED Nurse
- ICU Bedside Nurse
- Pharmacist
- Family
- Respiratory Therapist
- Dietitian
- Social Worker
- Physiotherapist/occupational therapist
- Other (please specify)

7. What tools would you require to complete ICU rounds in the ED? (select all that apply)

- Computer
- Meeting room
- Other/comment (please specify)
- Specific computer software (list in comment box)
- None

8. What time works best for the Purple Team to run interprofessional ICU Rounds in the ED for ICU patients boarded there?

- 07:00
- 08:00
- 09:00
- 10:00
- 11:00
- Other (please specify)
Enquête du personnel infirmier - évaluation préalable

1. How clear is the plan of care for ICU patients held in the ED?
   - [ ] Extremely clear
   - [ ] Very clear
   - [ ] Not so clear
   - [ ] Not at all clear

2. Are there any changes you would make to improve communication?

   [ ]

3. We are working to implement ICU style interprofessional Rounds in the ED for Level II ICU patients. They will typically take 5 to 10 minutes per patient. When is the best time for Rounds to take place in the ED?
   - [ ] 0500
   - [ ] 0900
   - [ ] 1000
   - [ ] 1100
   - [ ] Other (please specify)

4. Who should be involved in the bedside ICU Rounds in the ED for them to be successful? (click all applicable boxes)
   - [ ] ICU Fellow
   - [ ] ICU Staff Physician
   - [ ] ED Charge Nurse
   - [ ] ICU Charge Nurse
   - [ ] Patients Primary ED Nurse
   - [ ] ICU Bedside Nurse
   - [ ] Pharmacy
   - [ ] Family
   - [ ] Respiratory Therapist
   - [ ] Other (please specify)

   [ ]
5. Do you know what your role as the patients' nurse would be in Rounds?
   - Yes
   - No

6. What would your role be as the patient's Bedside RN in Rounds?
   - Run the Rounds.
   - Review lab values.
   - Give and overview of the patient's ABCDE's and needs to the team.
   - Write orders.
   - Suggest care plan.
   - Nothing, I'll go for coffee break during rounds.
   - Advocate for the patient and family.
   - Other (please specify)
Enquête du personnel infirmier - Suivi

1. With bedside ICU rounds now taking place in the ED, how clear is the plan of care for ICU patients held in the ED?
   - Extremely clear
   - Very clear
   - Not so clear
   - Not at all clear

2. Are there any changes you would make to improve the rounds?

3. Do you know what your role as the patients' nurse is during rounds?
   - Yes
   - No

4. What is your role as the patient's Bedside RN in rounds?
   - Run the Rounds.
   - Give and overview of the patient's ABCDE's and needs to the team.
   - Suggest care plan.
   - Advocate for the patient and family.
   - Other (please specify)
